

On behalf of our customer (Linxon), we are now looking for a

Senior Project Manager

Reporting to Director of Operations – Department: Operations

Location: Västerås, Sweden
Remote: Applicable (customer site & project oriented)
Worker Type: Employee
Job Type: Regular

Purpose of the Job

As a Senior Project Manager you responsible for delivering some of the largest turn key Substation projects in Sweden. You are leading a highly skilled multi-disciplinary project team and managing suppliers and contractors.

Key words: On time, on budget and with high customer satisfaction.

Key Areas of Responsibility (KARs)

- You have the overall responsibility in all aspects for your project.
- You lead your team to deliver as well as they enjoy working at Linxon.
- Ensure Safety, Health and Environmental requirements are implemented, and no one gets hurt working in our projects.
- As a senior level figure within the local business, you are expected to have a keen interest in finding out and sharing your knowledge about new development, market trends, publically known competitors' products and activities.

Experience Required

- Experienced in execution of Substation project on the Swedish market.
- Lead substation projects on voltage levels above 110 kV.
- You have managed several delivery projects during the last few years.

Required Competencies and Personal Skills

Linxon's office in Västerås. The opportunity to join *Linxon's Work from home* concept and the fact that several of our projects are located in the Stockholm area also enables living in Stockholm.

- You have strong leadership and interpersonal skills. This means that you are a sharp negotiator, with an excellent ability to resolve issues, lead teams and work constructively with customer relations.

- You get your messages across in a coherent and clear way and lead your projects with great confidence – and you have the character to stand straight in good times and bad times alike.
- You take initiative and apply both creativity and perseverance are necessary to negotiate and implement the necessary actions and this always within compliance of Linxon's Code of Conduct.
- You can stay calm, even if unforeseen events threaten to disrupt your projects.
- Your achievements are built upon a solid business and commercial mindset.
- You have good knowledge of processes in industrial, large and complex or turnkey contracts is required
- Experiences aside, the most important aspect is a great attitude. We are looking for you, who are enthusiastic, energetic, willing to learn and to pitch in wherever needed, to reach the project's goals.
- Fluency in Swedish and English is required.
- Permit to work in EU.

Linxon's office in Västerås. The opportunity to join *Linxon's Work from home* concept and the fact that several of our projects are located in the Stockholm area also enables living in Stockholm.

Personal Qualities Required

- Positive Leadership
- Clear business and commercial focus
- Able to keep an overview perspective and the ability to prioritize
